

Maternal & Child Health

Maternal and Child Health Boot Camp

December 28th - January 29th, 2021

Tuesdays 10:00 am - 12:00 pm, remote synchronous

This course fulfills semester requirements for BS and Undergraduate Certificate programs

Students will explore the foundational theories employed in maternal and child health, the key determinants of health at various stages of the developmental cycle, influential maternal and child health programs and policies, and critical maternal and child health disparities.
