Fall 2018

BASHIR SADAT
(AFghANISTAN)

Bashir Sadat is currently a graduate student of Instructional Technology department at Lehigh University. He has education and experience both in education and information technology fields. He has a bachelor’s degree in Education Management from Kabul University, also an associate degree in Information and Communication Technology ICT from Afghanistan Technical and Vocational Institute. And lately, following his associate degree, he graduated from Computer Science department of Maiwand Institute of Higher Education Kabul with a Bachelor of Computer Science.

XIAOQING ZHANG
(CHINA)

Xiaoqing Zhang, healthcare system engineering, China, I really love Harry Potter and some buildings in Lehigh are kind of like the castle in the movie.
YING LU (CHINA)

I am a master student from College of Education, Comparative and International Education program. I am really happy to welcome incoming international students all over the world! Apart from the ‘tough’ graduate academic life, I really enjoying my time with my friends from different countries and sharing our own cultures and celebrate different festivals. Moreover, it’s also interesting to know a lot of people who come from diverse background but somehow share similar values. I like playing computer games and video games when I have time. I am also a Marvel fan! Hope we can have a good time together and welcome to Lehigh!

KARAN SHETH (INDIA)
